CK13 has its own sound technician. Concert organizers or bands are in obligation **to secure technician's fee of 2 500 RDS.** If it is necessary, CK13 can employ the sound technician's assistant who helps the sound-man during the event, and one's fee is 1 500 RSD. (It is possible for the band to have its own professional sound technician or get one on express recommendation, but the sound man obligational fee does not change). In case that we host an event during which music instruments are not included on stage, such as DJ performance, parties (for DJ's, MC's, matrix, etc.), the arrangement for the sound technician's fee is subtracted and adds up to 1 500 RDS.

The set-up and sound-check of the main act requires more time than 60 minutes, it is necessary to inform us.

Security

Standard security - 2 staff members / No Barrier

The staff member's fee (per person) is 1 800 RSD. We are obligated to have two security staff per event.

CK13 reserves the rights to assess the safety risks for the event and the necessary number of security staff members.

How to book an event?

Concert organizers or bands are obliged to send a promotional flyer, a short description and gig announcement ahead for the club's printed material for the upcoming month (that is 20th of the previous month). The written announcement doesn't have to be long, between five to ten sentences (a short band bio, discography, gig announcement) which is sent to our mailing list, to media, the official web site, and printed in the club's monthly program. We cannot print flyers nor gig posters. We are not in situation to pay band for performance, therefore all the money from ticket sales (100% of the ticket sale) goes to the band / gig organizer. The number of tickets sold is limited to 150. The lowest ticket price at the door is (from) 200 RDS. Depending on the length of the bands' guest list, number of tickets available can vary. Due to the club's capacity (170 people), the club cannot take more people. If the band has its own tickets printed, it is possible to put them on pre-sale or leave at the door. Because of the club's limited capacity, it is possible to hold only double - bill concerts per night (only two bands).

Concerts on **work days should end at 11 pm.** and **on weekend by 00.30 am.**

When an arrangement is made and a date is scheduled it is necessary to meet all the requests. It is also required to phone in a week before the booked event, so the CK13's management can go through the details once again, or get acquainted with any changes.

CK13 Youth Centre has the rights to change the program or the time of the announced event with the previous mandatory announcement to all it may concern.
